Stephanie Anderson (CFO)

- Letter NRE to Min. (Feb 17th)

\$750,000 has stopped but for

land road upgraded (100km long)

1M. town of one is sitting at Const.

will stop from July to Oct close to 3M tons
(approved for 4.2M)

EIS pushed to September (was supposed to be April)

Env. Impact Statement

4.2-4.5-4.6-4.7-4.8-4.9-5.0-5.1-5.2

and switch to Rail - use same corridor

Proposed April Oct 2014

NPC took 4 months but conform to land use plan

seek exemption from NRE, received last year.

we look at all alternative roads.

NRE asked to look for railway to Pitme.

Now: up to the minister to provide clarification

- how long will it take?

- will she solicit comments?

Mark: Min. still getting up to speed, it depends on the
solution itself

Cathie Min. might be interested into engaging Inuit

Baffin OLA, NCI, band one covered

get letter of support is advance?

13 mins Baffinland Phase 4 meeting with Wayne McPhee

- new director unit + government affairs ^{side} Mary Hathaway
- Todd has been dealing with gov side
- he deals more with day to day and environment
- NPC was not comfortable giving them conformity because rail is not explicitly in NBLUP
- NPC wants whole rail amendment Baffinland wants amendment to amendment
- offer the best settles (amendment to amendment?) they will ask NPC to finalize amendment #1
- will not be looking to coordinate process URB & URB
- planned to go back to communities to talk about what will be coming 1st or 2nd week in May. The main thing they are worrying about is jobs
- employment is going to spike
- invites us to this, whether to attend or even speak
- NMS: Todd, ^{president} Brian (ex. gov), Megan (new Jennifer), Tom

Date Feb. 2nd, 2017

Mary River Socio EC Conference Call

- Richard 705-477-3180

1(866) 469-3239

meeting number ~~790~~ 790 244 459

- QIA (Becky) + Shiree
- BM (Jason, Richard, ? Minky)
- GN (Lou Cameron)
- Chantelle

* Asked to be put in contact when
the new Mary River folk comes in.

• 2016 Report will be submitted
in March at NRB

• Similar to the 2015 content

• Want to include some results
from the survey

• Want to include trends

• Still acquiring data Analysis?

→ Similar to 2015, the 2016 Inuit
employment numbers are lower
than wished

• will put in place strategy and
new initiatives

• lots of them over

• Mary is the lead on this file

Page

Date

- e Strengthened stakeholder collaboration
 - e increase data collection re training
 - e Pilote of A
 - o improve onboarding /orientation of new employees
 - e Process to identify the turn over around 12 weeks, understand issues
 - e Focus on women and youth, presence in career fairs, scholarship.
 - o will elaborate with QIA monitoring framework
 - o Develop a non-site internship program. (Q2 2018) with Arctic College
 - e Develop a better complaint and grievance process
 - e Want to also focus on the local contracting firms (Inuit procurement Strategy)
- Still looking for data that was required from PC but difficult to get at the local level
(Daycare availability, teen pregnancy, violence, divorce, etc.)
- GN → Will this work ~~be~~ like last year (circulation of draft w/ the WG)
• No because of timing but once submitted will still be open to discussion

Page

→ Survey comments
following a condition from PC
will be part of the orientation
package, voluntary
* See Instructions for more details

GIN has comments:

- Added some questions re housing
 - How many bedroom, how many people share the house)
 - Asking if the increased income would make other housing possible (out of public housing)
 - ↳ maybe less relevant if only for new employee

- Had lots of push back from last year's survey. So doing a new approach with just the new employees
 - But then it's challenging to see the changes with employees after a while
 - GIN would like to see this survey offered to all employees
 - Need to add the question "How long have you worked with the mine"

Date:

- ↳ BML Find adding all these questions would make it too long and cumbersome
- ↳ GN understands but thinks all the new questions are related to the project...

QIA

- ↳ OFFERS some idea of how to introduce the survey to all employees (through IIRBA liaison officer)
- ↳ They share the concerns of GN about having all employees to monitor the changes
- ↳ Maybe the issue was in the communication of the survey?
- ↳ Under IIRBA they also have requirements of surveys and they suggest to merge all of them
- ↳ They added some comments or re-wording, follow up questions
- ↳ Maybe not having the name or employee # or their department to keep it more anonymous.

BATH asked if other projects have done this

- ↳ GN said yes Mentawbank and they will provide the results

Page

• Review of Amendment

- Today or tomorrow will submit ~~the~~
a new Project proposal to NPC
- 45 days for NPC to Conformity
- Community engagement since the
2 years the new proposal was out
- They are hopeful they will get consistency
- They plan submission to NIRS
mid-March
- EIS end of April

Learn and focus **EIS**, not a Stand Alone

• Socio Ec side will include lots of
monitoring info and baseline

- Indicators and concerns
- Lead 5 community works that
they did will be reported in
- Not a Stand alone doc, amendment
from the initial
- Highlight changes, what won't
change, residual effects, new
benefits

→ Question from GN

ERP reading, was difficult to
follow what number btw initial,
ERP, Phase 2

• 4 project phases

✓ • North and South Rail?

Date

• My question

→ No screening?

→ They hope but no certainty
from NIFB on the exact
process

→ Socio EC Monitoring Workshop (GN)

• Want to have a territory ~~for~~
overview because project ~~for~~
project doesn't give good view
of what is happening in the
industry

• Looking at a timing around
May for workshop.

Karen Costello - In the news - resending

From: Karen Costello
To: Todd Burlingame; Wayne McPhee
Date: 2/3/2017 11:41 AM
Subject: In the news - resending

Good day Todd and Wayne,

I wanted to touch base with you on a couple of things.

Scott Burgess our Mary River Team Project Manager has moved on to southern pastures. Sarah Forte is our new lead for Mary River. Sarah.forte@aandc.gc.ca

During this week's recent socio-economics meetings Baffinland representatives indicated that the Phase 2 project description would be going to the NPC for a conformity determination in the coming days. We have noted that NPC does not post submissions until after a determination has been made. It would be extremely useful for us to receive a copy once you have sent it to NPC. Sending a copy to Sarah would be appreciated.

This morning we heard and read on CBC about the NPC issuing a conformity determination on proposed winter sealift for March of this year. The media coverage was the first time we became aware of this submission. We did follow-up and find the posting on the NPC website but, as mentioned above there was no posting of your submission earlier than the release date. The NIRB will now conduct a screening process, soliciting comments from interested parties. Is there anything more to your submission beyond the information on the NPC public registry? <http://npc.strata360.com/portal/project-dashboard.php?sessionid=&appid=148423>

I am in Toronto March 5-8 so perhaps an opportunity can present itself for us to touch base in person.

Regards,

Karen

Karen

>>> "Pawley, Kim" <kim.pawley@tc.gc.ca> 3/11/2015 12:15:11 PM >>>

At this point we are indicating to BIMC that all we can do is answer their questions relating to our regulatory regime governing shipping through ice-infested waters (our RD, PNR has been in contact with Oliver, Erik and Mike). We provided a very comprehensive overview of this regime in our written submission for the original Mary River project, which is still applicable even though at that time the contemplated icebreaking was through Steensby. We provided our written submission to NPC last year when they were contemplating the amendment for the ERP shipping route from Milne. I guess we could reiterate the ice-breaking and ballast-water related info, but we wouldn't really have anything new to offer. We are also concerned about possible perceptions if we contact NPC directly at this stage, as there doesn't seem to be any public indication of the determination (I guess they are waiting for the Commission's final determination when they meet later this month).

Keen to hear what you guys decide!

Thanks.

Hi Kim,

They have engaged us. We are still having internal discussions to consider our options. Has TC intending on writing the NPC? This is one option we are considering but we have not decided yet. Perhaps later today we might have more to offer.

Eric

>>> "Pawley, Kim" <kim.pawley@tc.gc.ca> 3/11/2015 11:58 AM >>>

Hi,

Just wondering if BIMC has tried to engage you guys since they received their letter from NPC last Thurs? I am wondering if there is merit in having a discussion to ensure we are all on the same page in responding, and what the likely path forward is. Our Justice folk are having a chat with Ken and Sina this aft, but I'm thinking of the more operational level.

Thanks,

Kim Pawley

Good day David,

In the forwarded email you will read information that Baffinland's senior management has scheduled a meeting with Mark Hopkins for Tuesday 4pm to discuss INAC's response to the 2017 work plan addendum submitted under the water licence.

On June 6 the NWB invited interested parties to submit comments regarding Baffinland's proposed changes to their 2017 Work plan (2017 Work Plan Addendum).

Staff (Sarah, Ian, Andrew and I) participated in a teleconference with Baffinland, QIA and NWB staff on Thursday June 22 to discuss the proposed addendum to the 2017 Work Plan. In all documents submitted by the licensee, the addendum activities were portrayed as *modifications*. During that call we conveyed to the licensee that as part of our review of would be looking at the proposed *modifications* to determine if they were consistent with the water licence and Amendment No. 1 and the NIRB project certificate. Based on a review of the two sets of documents, our analysis determined the new activities were not within what was assessed and considered. We also comment on security. CIDM 1156962 is the INAC submission.

INAC's and the QIA's comments pertaining to the work plan addendum can be accessed through the following link:

[ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MRY1325%20BIMC/3%20TECH/10%20A%20and%20R%20\(J\)/J,%203%20Closure%20and%20Reclamation/](ftp://ftp.nwb-oen.ca/registry/2%20MINING%20MILLING/2A/2AM%20-%20Mining/2AM-MRY1325%20BIMC/3%20TECH/10%20A%20and%20R%20(J)/J,%203%20Closure%20and%20Reclamation/)

QIA considers the Addendum incomplete under their Lease, and has conveyed to Baffinland directly its additional information requirements.

The NWB requested that BIMC review and provide response to the comments on the workplan no later than July 7, 2017.

A second email (1157523) was received from Baffinland this morning advising of correspondence sent to the Minister and NPC Chair late Friday afternoon regarding Baffinland's request to amend the NBRLUP to accommodate Phase 2.. CIDM documents 1157518 and 1157519 are the documents related to that correspondence.

It may be useful for us to have a call with Mark's office in advance of his 4pm meeting with Baffinland. I can reach out to Catherine Conrad first thing Tuesday morning to advise of the weekend communication.

Karen

QIA considers the Addendum incomplete under their Lease, and has conveyed to Baffinland directly its additional information requirements.

The NWB requested that BIMC review and provide response to the comments on the workplan no later than July 7, 2017.

A second email (1157523) was received from Baffinland this morning advising of correspondence sent to the Minister and NPC Chair late Friday afternoon regarding Baffinland's request to amend the NBRLUP to accommodate Phase 2.. CIDM documents

*Released under the Access
to Information Act*

*Communiqué en vertu de la
Loi sur l'accès à
l'information*

1157518 and 1157519 are the documents related to that correspondence.

It may be useful for us to have a call with Mark's office in advance of his 4pm meeting with Baffinland. I can reach out to Catherine Conrad first thing Tuesday morning to advise of the weekend communication.

Todd.Burlingame@baffinland.com

Dear Mr. Burlingame and Mr. Nakashuk:

Thank you for your letters of June 30 and July 4, 2017, bringing to my attention your respective concerns regarding the process to consider Baffinland's proposed amendment to the North Baffin Regional Land Use Plan, made on March 17, 2017.

The decision whether to seek a ministerial exemption for the works and activities described in the project proposal submitted on February 3, 2017, is Baffinland's to make should it receive a negative conformity decision. I understand that the conformity determination process is currently paused based on a request from Baffinland. Should that process restart and the Commission determine that the project does not conform to the plan, Baffinland would have the option of requesting a ministerial exemption. If this occurs, it would be my responsibility to give that request full and fair consideration.

.../2

Subject: Re: Correspondence from NPC

That is fine with me.

Just as a brief heads up on the conversations here - Baffinland was here talking to Mark yesterday, mostly about NPC delays. The NRO is doing a signal check with GN and NTI on how to 'unstick' NPC's amendment process - or whether a Ministerial exemption is a possibility. I am checking with Ken on legal risk of exemption, given the 45 day window for Baffinland to request one may or may not have come and gone.

Definitely a need to separate out the funding issue and the amendment process issue. In my view, NPC does not need guaranteed funding to hold a public hearing to initiate a plan amendment process, especially when we would likely advise that a public hearing is not necessary.

Subject: Response to NPC information request and Proposal to Amend the NBRLUP
Attachments: Proposal for Amendment to the NBRLUP in relation to the Mary.pdf; 2017-03-06 NPC Letter re 148420 Mary River Phase 2 Expansion.pdf

Good day all,

Baffinland called me this morning.

Here is the letter Baffinland received from NPC suggesting that an amendment to the NBRLUP would be required for a new transportation corridor and Baffinland's response where they propose a compromise position of an Amendment to the language in Appendix Q (Amendment No. 2) rather than creating a new corridor.

Baffinland copied the parties that would be key to approval of the proposed changes including QIA, GN, NTI and your minister. Baffinland is looking for letters or emails to NPC of non-opposition or support for them to proceed with the process to Amend the language in Appendix Q so that we can move the Phase 2 Project Proposal back in to the EA process as quickly as possible.

Hi

Based on statements BIM made to Lands staff we will advance a BN seeking a decision from DM on options for the required lease security.

We will engage your team members.

I am off to Baker Lake this afternoon.

Karen

>>> Catherine Conrad 3/1/2016 12:26 PM >>>
Hello Scott and all,

Thanks for this information. Discussed with MarkH that we will add a table in the Mary River Security BN with these amounts and just put a line in the BN stating there are other security amounts held related to the project as per the table.

Georgina, if you have more up to date info, please let us know.

Karen and Scott, please keep us updated re: our dock land lease considerations. I am meeting with Erik and Oliver today re: the railway change so expect this may come up. If any decision made about that amount, let me know asap please.

Cheers,

Hi Karen, Catherine;

We currently hold [REDACTED] under Type B Construction Licence 8BC-MRY1416.

Note that this licence has been cancelled by the NWB, and we'll be returning that security once we have all procedural items worked out on the cancellation.

We currently hold [REDACTED] under Type B Exploration Licence 2BE-MRY1421, due to expire in 2021.

Under the Type A Licence, we hold [REDACTED] at present. Today was the date on which BIMC was to post the remainder (to bring us up to [REDACTED])

At present, we hold no security under AANDC Land Lease 47H/16-1-2.

My records show DFO holding [REDACTED] in security associated with the ore dock, but Georgina will have to confirm that.

Regards,
Scott

>>> Karen Costello 2/29/2016 1:30 PM >>>
Scott & Georgina,

We need some quick data ASAP for our colleagues in HQ today.

All security held for Mary River/ Baffinland.

What does DFO hold? I recall the DFO held

What does INAC hold under the various B licences, A licence, and any land use permits/leases.

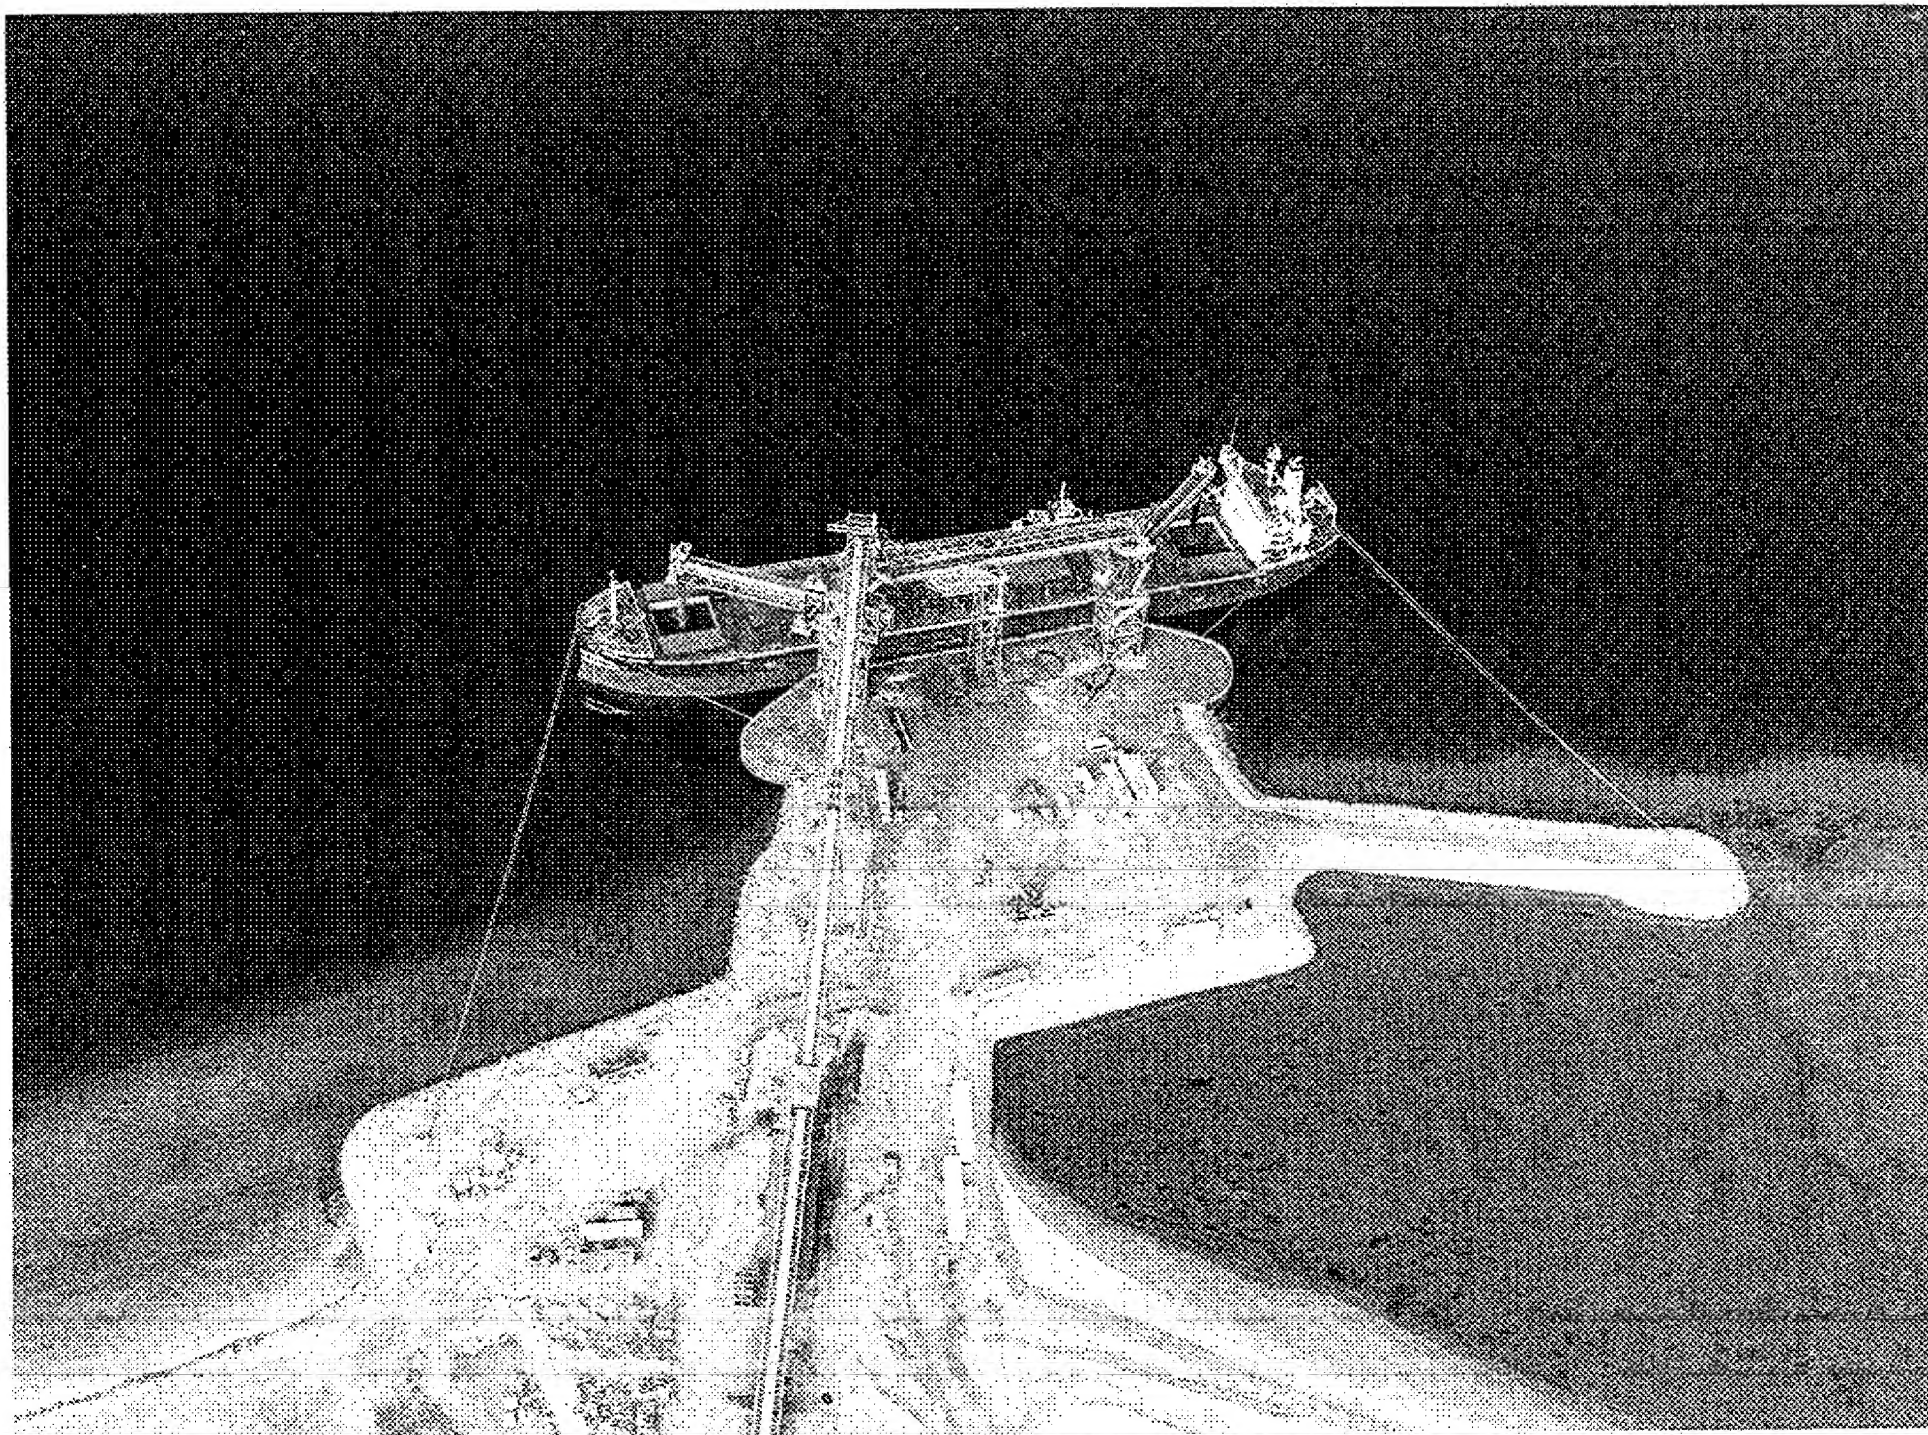

Thank you!

Karen

Subject: Mary River reconsideration - notes for Baffinland discussion

Hi Catherine and Jen,

Here are the notes I provided to Mark in preparation for the meeting that was postponed to today. They are largely based on Ken's cursory review based on the questions I posed in the legal request. Let me know if you have any questions.

Catherine, I left the NIRB's request for clarification on your chair.

The meeting is from 2:30-3pm.

Thx, Kim

POINTS FOR DISCUSSION

n.b.: We should be listening to Baffinland's concerns, but not offering our opinion. The NIRB is asking for the Minister's input, so this is not a decision in strict sense, however INAC staff will be asked to help inform any decision the Minister makes. Baffinland should not be providing us new information - everything should be with NIRB and on their website for transparency purposes.

Ken Landa (Legal) has provided some insight, and has been in touch with NIRB's counsel. Here is his take:

Points for Discussion with Baffinland – Request From NIRB for Clarification

CHRONOLOGY

- **December 28, 2012:** Mary River Project Phase 1 approval by INAC Minister.

Early Revenue Phase (ERP) Project

- **June 12, 2013:** Baffinland files application for a conformity determination
- **August 9, 2013:** Baffinland submits a revised request to NPC for the development of a transportation corridor pursuant to Section 3.5.11 of the NBRLUP, prior to making a conformity determination
- **December 9, 2013:** NPC recommends Amendment #1 to the NBRLUP to permit development of a transportation corridor (railway)
- **April 14, 2014:** NPC recommends Amendment #2 to the NBRLUP to permit development of a new transportation corridor.
- **April 28, 2014:** Minister approves Amendment #2 for a proposed transportation corridor. It covers the mine tote road and the marine shipping route from Milne Port. Minister is unable to approve Amendment #1 as drafted as it does not provide for a general, multi-use corridor.
- **May 28, 2014:** Early Revenue Phase (ERP) Project approval by INAC Minister.
- **June 5, 2014:** GOC provides written comments on Proposed Amendment #1 for a proposed terrestrial transportation corridor (railway and service road)

Phase 2 Project

- **October 29, 2014:** Submission of Phase 2 Development proposal to NIRB for reconsideration of the Project Certificate No. 005.
- **April 8, 2015:** NPC issued a negative conformity determination for Phase 2.
- **May 21, 2015:** Baffinland applied to INAC Minister for an exemption from the NBRLUP as permitted under the Nunavut Land Claims Agreement.
- **July 13, 2015:** INAC Minister approved exemption and the Project proposal was referred to the NIRB for Screening and Reconsideration.
- **February 17, 2016:** Baffinland wrote to NIRB advising them of a changed project description, to include a new railway from the mine site north to Milne Inlet.
- **February 22, 2016:** NIRB letter to INAC Minister seeking clarification on the application of the Ministerial Exemption from the NBRLUP given the recent changes to the Project proposal.

Attachments: IMAGE.png

Hi Erik,

Confirming that I will be available for the meeting.

Our office is on the 10th floor of 15 Eddy in Gatineau at Terrasse de Chaudière complex. It is just across the EB Eddy Bridge in Gatineau (Hull).

We can meet in the DGO Boardroom near the ADM Office.

Hello Stephen and Catherine:

As noted Oliver and I will be in Ottawa for other meetings on June 17th and 18th and we were hoping to get together in your offices on Wednesday June 17th from 330-430 to catch up on things.
What is the address of the offices you will be at?

Thanks

Hello everyone:

As discussed, this is to hold a time slot for a follow-up meeting at the Mining Symposium, to discuss the latest options for addressing the water use issue. The time is Wednesday, April 15th at 9 am.

I believe, Stephen, you indicated that you would be able to arrange for the board room at the Government of Canada building? Please kindly advise, thanks.

An agenda will follow.

OK, so can we do the pre-brief call at 1:30 then? Eric and I have not had time to connect today with StephenT so we should make time to chat before the 2pm call.

I know we are missing NMC Stephen but would be good to connect before we are on phone together with Baffinland. Ken hopefully can join us as well at 1:30.

Hope this works for all,

Subject: Baffinland Call

Hey there - Mitch and I just got off a call with Baffinland and understand there is a conference call with you this afternoon.

Just wanted to give you a bit of a heads up on the call we had.

They spoke with the NPC yesterday regarding the amendment process and did not get much clarity and apparently NPC raised the issue of lack of capacity and funding... Basically NPC asserted that they would be lead on an amendment but that they would determine the process once they received an application.

Baffinland will want to explore the issue of an exemption with you this afternoon and are hoping for better process clarity then they received from NPC on the amendment process and they will likely focus on a few things. In addition to understanding the process for an exemption they will want to understand the role of

They will also want to understand the level of consultation required with QIA - they will want to understand again what your expectations will be in terms of a response from the RIA. My initial thinking is that given

that his decision (if he were to grant the exemption) would lead to a referral to a review process that the requirement may be on the lower end of the consultation scale (you can confirm with legal).

Information

Finally given a fall election and the issues related to fall ministerial decisions timing will be important.

Baffinland also requested that I be on the call this afternoon.

Matt

Ken,

I have been asked to contact you to set up a meeting or conference call next week to discuss process issues applicable to the options of exemption or amendment following from the NPC determination.

We would propose a meeting or conference call on Wednesday from either 11AM to 1PM ET or 2 PM to 4 PM ET if either of those times are convenient.

Could you let me know if you are available to talk about this proposal either today or early tomorrow?
Thanks.

Brad.

Conrad, Catherine (AADNC/AANDC)

Subject: Discussion on AEM's Whale Tail and Baffinland's Mary River Projects
Location: Northern10D3
Start: Fri 07/10/2016 1:00 PM
End: Fri 07/10/2016 2:00 PM
Recurrence: (none)
Meeting Status: Accepted
Organizer: Neary, James (AADNC/AANDC)

Good afternoon

We have agreed to have an informal discussion regarding some processes underway. Topics for discussion include:

- The review of AEM's Whale Tail proposal and the possible reconsideration of the Meadowbank Project Certificate
- Minister's recent letter regarding the Mary River Land Use Plan conformity determination

This discussion will be held Friday, October 7th (2016) at 1:00 pm Gatineau time and 11:00 am Cambridge Bay time.
